conference Break-Outs

Supporting the Soldier

This break-out session will flow chart the process a Soldier undergoes when assigned to Fort Carson, including notification of assignment, arrival, the complete deployment cycle, and PCS, and how support agencies engage themselves into the integration and support of the Soldier. The primary deliverable will be the identification of process weaknesses and opportunities to improve services, as discussed during the break-out session.

Supporting Family Members

This break-out session will flow chart the process an adult family member undergoes upon arrival, during Soldier deployment, and PCS transition, and how support agencies engage themselves into the integration and support of the Family. The primary deliverable will be the identification of process weaknesses and opportunities to improve services, as discussed during the break-out session.

Youth Support Services

This break-out session will flow chart the process a youth family member undergoes upon arrival, during parental deployment, and PCS transition, and how support agencies engage themselves into the integration and support of the Family. The primary deliverable will be the identification of process weaknesses and opportunities to improve services, as discussed during the break-out session.

Installation Support Agencies

This break-out session will review the current level and quality of coordination between various support agencies on post. The primary deliverable will be a brief synopsis on the group's assessment.
